Cognitive, Emotional, Physical, Social, Spiritual and Moral aspects of education is scientifically followed to transform the students with adequate knowledge in languages, mathematics, science and social science subjects to mould them into well balanced personality equipped with knowledge and wisdom.

The Pedagogy we follow is to tune individually as per the aptitude and attitude of each student in coherence with the cultural background from which he or she comes. We focus to reframe every student to provide adequate knowledge and skill required to empower him or her as per their educational right.

A comprehensive pattern with a holistic approach in student friendly environment we mould each student in excelling their academic and co academic skills and learning.

The Life Skill oriented education system makes each student to address various problems in life situation and career oriented guidance make them to achieve excellent career in future.

Student mentoring by teachers and peer learning and group study methods with memory enhancement and effective learning strategies equip the students with sufficient knowledge and skills to meet the challenges in the learning process.

Summative and formative assessment with constant feedback and corrective measures make every student to achieve the learning target as per his or her ability and requirement.

TEACHING FACULTY:

Well equipped teaching faculty with sufficient knowledge, experience and practice is engaged in teaching process. Apart from regular faculty, visiting faculties on various special subjects conduct classes, seminars and workshops for the students.

STUDENT MENTORING:

Each teacher engages students individually in supporting his or her academics with personal mentoring, attention, guidance and caring. It enhances the improvement of each student to maximum capacity possible.

DISTINCTIVE CO CURRICULAR FEATURES OF OUR CAMPUS :

Art Integrated Education

Every activity within the confinement of education is aimed at the integrated development of the person be it academic or co academic. The Art Integrated Education practices not only make a student physically fit but also equip them with cognitive abilities of attention, concentration, planning, decision making, problem solving, emotional skills of coping with emotions, coping with stress, and social skills of effective communication and healthy interpersonal relationship. With this perspective of comprehensive development of students we have implemented a host of co curricular activities in the campus.
